The Scowcroft Institute of International Affairs at the Bush School of Government and Public Service at Texas A&M University invites you to attend the 4th Annual Pandemic Policy Summit focusing on pandemic response, health security and biodefense policy. The Summit is being held October 14-16, 2018, in College Station, Texas, at the Annenberg Presidential Conference Center. The Pandemic Policy Summit brings major leaders, researchers, and practitioners together from diverse backgrounds including: pandemic and bio-defense response organizations, US Government institutions, multilateral and non-governmental organizations, private sector partners, developing countries, bilateral partner organizations, foundations, think tanks and institutions critical for improved pandemic response, bio-defense and health security.

This Summit is both policy and practicum focused and will result in a “White Paper” to be distributed to key decision makers for further discussion including the: US Administration, Congress, multilateral and bilateral organizations, developing countries, and other institutions important to shaping US national and health security, especially as it pertains to long-term resources and policy making. We hope you will join us on October 14-16, 2018, and we look forward to working with you and answering any questions you may have. Contact us at 979-845-6510 or email us at [bushschoolscowcroft@tamu.edu](mailto:bushschoolscowcroft@tamu.edu).
