The Master of Public Service and Administration (MPSA) program trains principled leaders for the public and nonprofit sectors. The MPSA degree is a 21-month program that requires 48 credit hours (16 courses total) of course work and, for those without substantial professional experience, a non-credit-bearing internship. All students take 8 degree core courses that provide general knowledge and analytical skills. Students then must choose a track in either Public Policy Analysis (PPA), Public Management (PM), or Nonprofit Management (NPM), each consisting of 4 courses (2 core courses and 2 elective courses). This leaves the student with 4 elective courses, 3 of which may be used toward a concentration, or all 4 may be used as general electives.

Additionally, up to 2 elective courses may double-count toward a track and concentration or two concentrations. Furthermore, up to 6 credit hours of graduate or upper-undergraduate electives may be taken from other Texas A&M departments when courses are related to public service careers. Deviations from the above guidelines will require a petition or waiver form, available at https://bush.tamu.edu/psaa/resources/.

MPSA CONCENTRATIONS (optional)

The following lists the concentrations and their descriptions, along with suggested elective courses to support each concentration. Students who choose a concentration must take a minimum of three courses from their concentration’s listing of courses.

Additionally, a student may design a concentration not listed below in consultation with his/her advisor and the PSAA department head. Course offerings are subject to availability in particular semesters.

Analytical Methods (AM)
Associated Faculty: Lahey (coordinator), Bright, Bullock, Cortes, L. Taylor

This concentration provides an analytic toolbox for effective program and policy analysis. It uses quantitative and qualitative methods of analysis and implementation of such analysis in both policy and administrative settings. Students must take two core Methods courses (including the core Quant. Methods II requirement) and at least two Methods electives. If the four core courses are not chosen to satisfy the requirement, then one of the electives may be technical and at least one of the electives must be practical.

Methods Core Course (Choose at least two.):
BUSH 632: Quantitative Methods II
BUSH 635: Quantitative Methods II: Policy Analysis Emphasis
PSAA 630: Program Evaluation in Public and Nonprofit Organizations
INTA 637: Field Research Methods

Technical Methods Elective (Choose no more than one.):
ECON 459: Games and Economic Behavior
ECON 440: Experimental Economics
MATH 411: Mathematical Probability

Practical Methods Electives (Choose at least one unless AM core courses are used to meet all concentration requirements.):
INTA 616: Economic Development in China (must choose empirical option)
INTA 625: International Trade Policy
INTA 632: Advanced Economic Development
GEOG 660: Applications in GIS
ECMT 475: Economic Forecasting
EPSY 640: Experimental Design in Education I
HLTH 632: Health Program Evaluation
EPSY 637 or SOCI 624: Qualitative Methods
PHEB 603: Biostatistics II
PHPM 655: Survey Design for Public Health Research and Practice (credit cannot be given for both PHPM 655 and BUSH 632)
PHPM 689: Spatial Economics in Health Services (GIS)

More advanced methods theory courses from Economics, Political Science, or Statistics (or selected other programs) can be included as technical electives with permission from your academic adviser. Practical methods courses not on this list can be used with adviser permission provided that the course has a significant empirical component.
Cybersecurity (CS)
Associated Faculty: Davis (coordinator), McLaughlin, Sowell
This concentration is designed to allow Bush School students to conduct focused study on a topic that has application across both public and private enterprises. This combination of three courses is designed to help students develop both theoretical and practical cybersecurity knowledge, skills, and abilities.
