## Acknowledgments

This data collection was supported by National Science Foundation grants to Robert Harmel at Texas A&M University (SES-9112491) and to Kenneth Janda at Northwestern University (SES-9112357).

In addition to those whose names appear on the cover of this book, the principal investigators would like to acknowledge the help of Michael Pennington, Lu Shen, and Anton duPlessis, all of whom assisted in final proofing and assembly of the issue data books at Texas A&M.

Finally, a special thank you to Beth Leech. We knew from the beginning that coding primary goal data would be the most difficult - some said impossible - part of the Party Change Project, but Beth took it on and did a very credible job.
